HOW TO REPLY TO THIS NOTICE:

I. Review the SMALL ENTITY status shown above.

If the SMALL ENTITY is shown as YES, verify your current SMALL ENTITY status:

A. If the status is the same, pay the TOTAL FEE(S) DUE shown above.

B. If the status above is to be removed, check box 5b on Part B - Fee(s) Transmittal and pay the PUBLICATION FEE (if required) and twice the amount of the ISSUE FEE shown above, or

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

AMENDED TITLE: Electronic circuit device with optical sensors and optical shutters at specific locations.

Election/Restrictions

This application is in condition for allowance except for the presence of claim 1-7,9-15,17-23,25-31,37,38,52-54 directed to Species II a non-elected without traverse. Accordingly, claim 1-7, 9-15,17-23,25-31,37,38,52-54 have been cancelled.

Claims 33-36, 39, 43-51 are allowed.

The following is an examiner's statement of reasons for allowance:

Shannon (US 5268679) discloses (Fig. 2) a second light source (0), a first substrate (10 of final level 3) provided between said first light source and second light source; a first optical shutter((11) of final level 3, liquid crystal) provided over said first substrate ((10) of final level 3, a second substrate ((12) of final level 1), provided adjacent to the first substrate so that the first substrate is provided between the first light source and the second substrate; a second optical shutter ((11) of final level 1, column

Art Unit: 2871

6, row 18-32, liquid crystal) provided between the first substrate and said second substrate ((12 of final level 1); a third substrate ((10) of final level 1), provided between the second substrate and the second light source; a first optical sensor((11) of final level 1, photodiode) provided between said third substrate ((10) of final level 1) and under said second substrate ((12 of final level 1), and a second optical sensor ((11) of final level 3) provided over said first substrate (10 of final level 3), a first electronic circuit (such as a tft)(11 of final level 3~ provided between third substrate and second substrate; and a second electronic circuit provided over the first substrate ((11) of final level 3 (TFT).

Shannon does not disclose the specific location of the optical sensor and optical shutter with respect to the two external light sources that enter the display. Specifically: a first external light source wherein a first light emitted from said first light source is inputted into said first optical shutter and transmission and non- transmission of said first light are controlled by said first optical shutter wherein in a case where said first optical shutter transmits said first light, the transmitted first light is inputted into said first optical sensor to convert said first light into a first electric signal by a first electronic circuit wherein a second light emitted from said second light source is inputted into said second optical shutter and transmission and non-transmission of said second light are controlled by said second optical shutter and wherein in a case where said second optical shutter transmits said second light the transmitted second light is inputted into said second optical sensor to convert said second light into a second electric signal by a second electronic circuit.

It would not have been obvious to one of ordinary skill in the art to include another reference to disclose the specific location of the optical sensor and optical shutter since there is no motivation to do so.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
